Framery Q

The meeting room for 1–4 people

Framery Q office pod is a perfect place for people to have meetings, brainstorming sessions and important one-on-one conversations in private without disturbing the whole office – or the office disturbing you.

**Interior variations**

**Framery Q**

**Meeting Maggie**

Meeting Maggie is suitable for meetings, brainstorming and much more. Choose from three different table options – two Maggie Sofas are always included.

**Options**

- Frame and exterior colors
- Maggie sofa color options
- Door handedness
- Table
  - Full width
  - Turnable
  - Oval
- Backrest variations
- Wireless charger
- LAN
- Screen bracket
- Booking System Ready

**Framery Q**

**Working With PAL**

A high table and handy bar stools make this decor option very efficient for short-term sessions. The shape of the desk is suitable for teamwork for two, private sessions or video conferences and teleconferences. Working With PAL is available in two different height options.

**Options**

- Working height
  - Standard 90 cm / 35.4 in
  - High 110 cm / 43.3 in
- Frame and exterior colors
- Door handedness
- PAL seat color black/white
- Wireless charger
- LAN
- Screen bracket
  - (Working With PAL 90 only)

**Framery Q**

**Flip n’ Fold**

One of the more convenient and flexible interior alternatives for the Framery Q. Low doorstep, a wider door with an automatic door opener, folding chairs and table enable many different meeting arrangements and easy access with a wheelchair.

**Options**

- Frame and exterior colors
### Features

<table>
<thead>
<tr>
<th>Exterior</th>
<th>Painted sheet metal or brushed stainless steel</th>
</tr>
</thead>
<tbody>
<tr>
<td>Glass</td>
<td>Sound control laminated glass</td>
</tr>
<tr>
<td>Frame and table</td>
<td>Formica laminate on birch plywood with varnish trim</td>
</tr>
<tr>
<td>Solid walls, roof and floor</td>
<td>A sandwich element of sheet metal, birch plywood, recycled acoustic foam and acoustic felt. An anti-static and stain resistant low loop pile carpet for interior floor.</td>
</tr>
<tr>
<td>Weight</td>
<td>Without furniture: 630 kg / 1389 lb</td>
</tr>
<tr>
<td>Airflow</td>
<td>Total airflow is 66 l/s / 237,6 m³/h</td>
</tr>
</tbody>
</table>

Minimum recommended space for the air to circulate is 5 cm / 1.9” on the sides and 15 cm / 5.9” above the pod.

Power cord can be led out of the bottom corners of the pod and out from the ceiling as well. The cord length outside the pods is 4.5 m / 177 in.

All electric components can be changed if there is a malfunction.

### Measurements

<table>

</table>

Input and output values

<table>
<thead>
<tr>
<th>Input:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• 100–240 VAC, 8.0 A, 50–60 Hz</td>
</tr>
<tr>
<td>Output VAC (table socket):</td>
</tr>
<tr>
<td>• 100–240 VAC, 6.6 A, 50–60 Hz</td>
</tr>
<tr>
<td>Output USB (TUF) charging:</td>
</tr>
<tr>
<td>• Maximum combined output of 5 A at 5 VDC (25 W)</td>
</tr>
</tbody>
</table>

Power consumption is a constant value that is determined by the power usage of the pods’ internal components (electric unit, motion detector, light and fans).

Framery’s products can be plugged into a wall socket. The pods have their own power supplies that give 24 V DC to the lights and 12 V DC fans. The lights and fans are operated by a motion detector. Inside the pods, there are country-specific power outlets for charging mobile devices.
**Framery Q - Meeting Maggie**

**Maggie sofa**
- Right / left
- Without armrest / straight

**Framery Q - Working With PAL**

**Working With PAL 90**
- PAL stool 90
  - 65 cm / 25.6 in (height)
  - Painted white or black
  - Cloudy Gray felt caps

- Working With PAL 90 is available with a screen bracket.

**Working With PAL 110**
- PAL stool 110
  - 80 cm / 31.5 in (height)
  - Painted white or black
  - Cloudy Gray felt caps

**Table options**

**Turnable table**
- 70 cm x 71 cm x 53 cm (height, width, depth)
- 27.5 in x 28 in x 20.8 in (height, width, depth)

**Oval table**
- 70 cm x 71 cm x 68 cm (height, width, depth)
- 27.5 in x 28 in x 26.8 in (height, width, depth)

**Full width table**
- 70 cm x 200 cm x 60 cm (height, width, depth)
- 27.5 in x 78.7 in x 23.6 in (height, width, depth)
### Framery Q - Options

#### Booking System Ready

- **Framery Q**
- **Framery Q all interiors, Framery 2Q**
  
  Universal booking system bracket. Attached to the door locking plate. Bracket set includes 2 plates to choose from, large and small. Booking system can be connected to pods electrical system.
  
  - Maximum device weight 5 kg / 11 lbs

#### Wireless charger

- **Framery Q**
- **Meeting Maggie, Working With PAL, Framery O (wide table / VCR)**

  Wireless charger option is located under the table surface, label indicates the position of the charging point.

#### Screen bracket

- **Framery Q**
- **Meeting Maggie, Working With PAL 90**

  Framery Q screen bracket is a custom screen bracket located on the center of the back glass. Display mounting with counterpiece 4 x magnets.

  **Screen specifications:**
  
  - Maximum display size 27” - Maximum weight 6.5 kg / 14 lbs with flat VESA 75 x 75 or VESA 100 x 100 mounting surface.

### Framery Q - Flip n’ Fold

- **Exterior**: 221 cm x 220 cm x 120 cm (height, width, depth)
  
  87.3 in x 86.6 in x 47.2 in (height, width, depth)

- **Door**: Left handed
  
  Doorway clear opening width 91.5 cm / 36 in

- **Platform**: 99 cm x 60 cm (width, depth)
  
  39 in x 23.6 in
Framery Q - Flip n’ Fold features ADA 2010 compliant T-shaped turning space and threshold.

Power

20 W while in use
- LED light: 11 W
- Fans in total: 8.6 W

2.1 W standby power consumption
- Fans are working on 25% of the maximum power

Maximum power consumption:
- 23 W total
- LED light ceiling: 13.5 W
- Fans in total: 8.6 W

Outlets
- Puma: 2 power sockets + 2 charging USB sockets

Input and output values

Input:
- 100–240 VAC, 8.0 A, 50–60 Hz

Output VAC (table socket):
- 100–240 VAC, 6.6 A, 50–60 Hz

Output USB (TUF) charging:
- Maximum combined output of 5 A at 5 VDC (25 W)

Power cord is led out from the ceiling of the pod.
The cord length outside the pods is 4.5 m / 177 in.

All electric components can be changed if there is a malfunction.
**Exterior and frame colors**

- *White (Standard)*
- Black
- **Brushed Stainless Steel**

- Black
- Piglet Pink
- Purple Red
- Lemon
- Cloudy Gray
- 50’s Blue
- Burned Orange
- Forest Green
- Spring Green
- Misty Blue
- Petrol Blue
Framery’s Quality Management System is certified against ISO 9001 and Framery’s Environmental Management System is certified against ISO 14001. CE marking is a manufacturer’s declaration that a product meets the requirements of relevant EC directives. The EC directives for Framery O, Q and 2Q pods are: Low Voltage Directive (LVD) 2006/95/EC, Electromagnetic Compatibility Directive (EMC) 2004/108/EC, Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU and Ecodesign Directive 2009/125/EC.

**Acoustics**

We do not give out the results of sound insulation measurements done to our products. The reason for this is that, at the moment, there isn’t a uniform way of doing these measurements. If we were to give out these results, they would likely be compared to results measured in another way. This kind of comparison would be misleading. However, we’re confident that the sound insulation of our products is the best in the product category.

ISO 23351-1 ([https://www.iso.org/standard/75299.html](https://www.iso.org/standard/75299.html)) is a new standard that is in the final phases of ISO’s approval process. It will be the first standard that can be used to determine the level of sound insulation of furniture ensembles such as pods, and to produce a single figure, called speech level reduction (Ds), that describes it.

**Material safety**

We conduct emissions testing for the products every time a major update is planned for Framery products in order to be sure that there aren’t any harmful compounds volatilizing from the products such as formaldehydes or VOCs. We want to embrace transparency of the materials we use for our products and thus we have compiled Health Product Declarations ® (HPD) for our products. Our HPDs can be found and downloaded for free online from the Health Product Declaration Collaborative public repository.

**Fire safety**

No flammable materials are used in Framery products. The fire safety of all surface materials, upholstery and acoustics materials of the products are tested and classified by either national or international standards. EN 13501-1 classification for the used materials is the following: acoustic wool is classified B-s1, d0, acoustic felt B-s2, d0 and carpet Cfl-s1. All surface materials have also been tested against ASTM E84 / UL 723 and are classified at least as Class C. Outer frames with laminated surface are IMO certified (French Maritime Authority). Moulded foam used in Tovi stool seat meets CA TB 117:2013 requirements. Fabric meets the performance requirements of BS EN 1021-1 and 1021-2. According to Inspecta, an EU accredited inspection body, there is no need for installing sprinklers in Framery O, Q or 2Q in Europe.

Framery has conducted extensive fire testing in US for the products and results- suggest that there is no need for installing sprinklers in Framery O, Q and 2Q in North America either. It is still recommended to check the requirements with local AHJ / fire inspector in North America as interpretations may differ.

**Sustainability**

Framery’s products consist mostly of plywood, steel, glass and acoustic materials. Plywood used in Framery products has a sustainable forestry FSC or PEFC certification. Sound dampening panels are made up to 60% and the felt panels are made up to 80% of recycled PET plastic (e.g. Plastic bottles). Significant part of all steel, aluminium and glass is recycled during their manufacturing processes. 3rd Party Certifier has conducted a Life Cycle Assessment (LCA) and compiled Environmental Product Declarations (EPD) for both Framery O and Framery Q.
